This game is simply broken and unplayable in its 1.03 state. Textures don't load properly, starting a new game leads to a hang where the ball is on the field but no players are, and no plays can be called, just an absolute mess with graphics that wouldn't pass muster in a free-to-play mobile game, never mind on PC.

I refunded this one, something I'll only do if a game is such a mess as to be a total loss.
